

# Week 2 – 27/04/20

## Adult Instructions for Bonus Activities

- Choose one activity a day.
- If you don't have access to a printer, it's very easy to make the resources yourself!
- The activities should be repeated to consolidate the concepts. When repeating the activities, pretend that you are 'the child.' Make some deliberate mistakes, and see if your child can spot/correct the mistake you've made!

### 1. **Bonus Activity 1: Number Recognition**

Cut out the numbers 1-5 (Resource 1, Pg. 2 of this document) and hide them around your house or garden. Ask your child to find the numbers. Once they have found all of the numbers, see if they can match the numbers up under the corresponding number (Resource 2, Pg. 2).

### 2. **Bonus Activity 2: Number Order**

Mix up the cut-out numbers 1-5. Using the empty template (Resource 3, Pg. 3), ask your child to put them back in order. Use Resource 2, Pg. 2 if your child finds it difficult to order on the empty template.

### 3. **Bonus Activity 3: Number After**

Choose any number 1-4 and place it where it would be placed on the number line (3 in 3<sup>rd</sup> box) on the blank template (Resource 3, Pg. 3). Ask the child to find the number that comes after that number and put it in its place. Repeat with other numbers 1-4.

Resource 1:

1	2	3	4	5
---	---	---	---	---

Resource 2:

1	2	3	4	5

Resource 3:

--	--	--	--	--
